

STRUCTURAL BUILDING
COMPONENTS MAGAZINE (FORMERLY
WOODWORDS)
December 2000

From Our Readers:

Dear Kirk,

Always enjoy receiving your magazine and BCMC information. For an old guy, it helps to keep me up to date-and recognize many of the younger folks who are accepting the responsibilities. This is the 21st BCMC-first in Louisville in 1980-good job and thanks. And 25 years for WTCA-first TPI "advising committee" formed at 1975 NHBA in Dallas.

George Eberle
St. Louis, Missouri

Dear Kirk,

ASI Commander, along with Fenton, Wynn & Associates, wish to express our appreciation for a job well done! Please share with the board of directors, staff and committees that BCMC 2000 was a tremendous success. Their hard work and commitment to the future growth of the industry was evident in every aspect of the show.

Again, thank you for a wonderful show!

Sincerely,

Tim Killday, Dale Fenton, Clyde Wynn & Kara Hunt

Dear Kirk:

You are to be congratulated on a "job well done" in the management of BCMC 2000....

I think BCMC is better every year and this year was no exception. The speakers were well informed, and very capable of delivering their message. The exhibits were well done, new ideas everywhere. I received the usual re-charge of my "free enterprise" batteries. As I have stated

many times, BCMC is a great illustration of the good old USA entrepreneurial spirit.

Please keep up the good work.

Very truly yours,

John E. Meeks, P.A., Consulting Engineer
Fort Lauderdale, Florida

The mission of Structural Building Components Magazine (SBC) is to increase the knowledge of and to promote the common interests of those engaged in manufacturing and distributing of structural building components to ensure growth and continuity, and to be the information conduit by staying abreast of leading-edge issues. SBC will take a leadership role on behalf of the component industry in disseminating technical and marketplace information, and will maintain advisory committees consisting of the most knowledgeable professionals in the industry. The opinions expressed in SBC are those of the authors and those quoted solely, and are not necessarily the opinions of any of the affiliated associations (SBCC, WTCA, SCDA & STCA).
